

Minnesotans Thrive With Tax Credits

Child Tax Credit

Every dollar counts when raising thriving kids

Eligible families may receive a Child Tax Credit of up to **\$1,750** for each qualifying child under the age of 18.

Last year, Minnesota families like yours received more than **\$561 million in Child Tax Credits**, benefiting more than **452,000 children**, with the resources needed for things like food, diapers, clothing, and other necessities.

To claim the Child Tax Credit, you must file your Minnesota state income tax forms. The Child Tax Credit can reduce the amount of income taxes you pay and you may receive a refund even if you don't owe taxes on your income from the past year.

Your family may qualify for \$1,750 per child if your income is up to \$36,880 (married) or \$31,090 (others). Families with incomes above these amounts may qualify for a smaller credit (see *table for CTC income limits*).

NEW IN 2025 On your tax return, you can now choose to receive part of your credit for next year in three advance payments. Learn more:
